

Creating a training methodology for sustainable development in education

EDUS project strives to achieve the goal set out by the United Nations' 2030 Agenda for Sustainable Development stating that by 2030 all learners should have acquired the knowledge and skills to promote sustainable development.

EDUS' objectives are...

To identify and assess knowledge and competences related to **sustainable development**.

To provide VET trainers with **adaptable tools** to include sustainable development in their curricula and practices.

To **mainstream and implement** sustainable development in the **VET system**.

Access our educational tools for VET trainers and discover our podcast and videos on sustainability as our project grows!
